Fujian, China

BEng, Digital Media Technology

09.2015-06.2019

Key Courses: Game Program Design, Game Artificial Intelligence, Digital Image Processing, Data Structures and Algorithms, Database Theory, C, C++

Awards: Outstanding Graduate, Excellent Student Journalist, Excellent Student Leader

RESEARCH EXPERIENCE

Research Assistant

Research on Digital City Communication Power: Investigation of Chinese Urban Agglomerations

07.2024-10.2024

Supervisor: Prof. Pan Affiliation: School of Journalism, FDU

- Constructed the "Digital City Communication Power" index system for this Major Project of the Ministry of Education
- Established a four-level indicator framework covering four key dimensions: Digital Infrastructure, Data Fusion Mechanisms, Digital Platform Efficacy, and Digital Well-being Acquisition
- Validated urban indices for major regions (Yangtze River Delta, Beijing-Tianjin-Hebei, Pearl River Delta) using web crawling, data analysis, and public data collection
- Developed the Macao-Shanghai Twin City Digital Communication Power Index System as a key project outcome

Understanding the Truth of Infographics through the Black Box

03.2021-03.2023

Supervisor: Dr Gengxing Jin Affiliation: Department of Internet and New Media, USST

- Investigated the production of data journalism *Shanghai Observer*
- Performed analysis of the operational steps of visualization software and explored how technology as an actor participates in visualization production
- Interviewed journalist, visual designer and engineer from *Shanghai Observer*, *FiveThirtyEight*, *Takungpao* etc.
- Performed analysis of infographics found on the Guardian Datablog
- Published a paper in a peer-reviewed journal in China

Online Collaborative Fact-Checking Project based on Big Data **04.2022-06.2022**

Supervisor: Dr Gengxing Jin Affiliation: Department of Internet and New Media, USST

- Launched a collaborative fact-checking project and recruited community members
- Verified and clarified some "fake news" and "misinformation" that spread widely on social media during the COVID-19 pandemic
- Published six reports on *The Paper* and WeChat Official Account of our laboratory, and translated five articles about social media fact-checking

Fujian Excellent Online Course "Discrete Mathematics" **11.2017-09.2018**

Supervisor: Prof. Shuqun Yang Affiliation: Department of Software Engineering, FJNU

- Led the handouts making of the online course and designed its teaching framework
- Collaborated with Chaoxing Erya General Education Company

Team Leader

A survey of emerging shared study rooms in cities **03.2022-08.2022**

- Concerned about social issues such as urban integration and social mobility in China's current urbanization process
- Analyzed the data on shared study rooms from consumer review software; interviewed users of shared study rooms with a short video shot
- Launched a website named *Studying Alone*
- Wrote a report on the development of shared study rooms in China's Yangtze River Delta region and won Third Prize at The Intellectual Media Works Competition in Shanghai

Convergence Media Center in FJNU **06.2016-06.2018**

- Led the construction of campus convergence media and chaired weekly meetings
- Organized the publicity for FJNU's 110th-anniversary events; interviewed Chinese Olympic gold medalists; published a large number of reports, some of which were reprinted by local media
- Led the team to win the China Youth Daily "Top 100 University New Media" title and the Second Prize in the "New Media Award of China University Newspaper"
